RESOLUTION NO. *DOC ID: 7030 A*

Memorandum

To: Facilities and Infrastructure Committee
From: Jeffrey Smith, Highway Director
Date: May 1, 2017
Subject: **AWARD OF BID - BRIDGE PAINTING - SALMON CREEK ROAD BRIDGE (BIN
3210100) OVER SALMON CREEK, IN THE TOWN OF LANSING**

The subject item is being submitted to the Facilities & Infrastructure Committee for review and approval. It will also require approval by the Legislature. Pertinent information is as follows:

1. Action requested:

Committee authorization is required for the County to award a contract to repaint the Salmon Creek Road metal truss bridge over Salmon Creek in the Town of Lansing.

2. Background:

The metal bridge on Salmon Creek Road just north of Ludlowville is a one-lane Baltimore through-truss bridge. The trusses were built in 1920 and were last painted in 1998. Highway forces made steel and concrete repairs and other upgrades on the nearly 100-year old bridge in 2016. Painting will extend the life of these repairs and will include removal of all old coatings within an environmentally compliant enclosure. Paint removal waste will be handled and disposed of as regulated waste. The design life of the paint system is 15 - 20 years. The Town of Lansing has requested that the bridge be painted red, its color prior to 1960 when it was painted green. Highway has installed its modular Bailey bridge next to the permanent structure to maintain traffic until painting and rehabilitation are complete later in 2017.

Since the bid opening is scheduled for Monday, May 8, bid details, including the name of the low bidder, are not currently available. A summary of bidders and their bids will be provided to committee at the May 9 meeting.

3. Financial Implications:

This project is entirely locally funded through the Road Maintenance Capital Program. Initial expenses will be paid from the account established for 2016 (HZ 5118), which has approximately \$37,000 in unencumbered funds remaining to be used for this painting project. Once that account is depleted, concluding expenses will be paid from the 2017 account (HZ 5120), which has an allocation of \$200,000. The recommended resolution also includes authorization for change orders up to 10% of the contract amount, the amount typically approved by the Legislature, to be funded from the 2017 Road Maintenance Capital Program allocation.

Inspection will be provided by County Highway technical staff.
