Department: Planning and Sustainability Department
Category: Environmental
Functional Category:

SCHEDULED

RESOLUTION NO. DOC ID: 7129

1 **Appropriating Funds from Tompkins County Natural Infrastructure**
2 **Capital Project for the Etna Swamp – Brotherton Farm Protection**
3 **Project**

4 WHEREAS, the Tompkins County Legislature established the Natural Infrastructure Capital Project in 2017,
5 and
6

7 *WHEREAS, the current balance in the Natural Infrastructure Capital Project fund is \$200,000, and*

8
9 WHEREAS, the Natural Infrastructure Capital Project is focused on protection, by acquisition, easement,
10 restoration and/or stabilization, of:

- 11 • Upper watershed forests and wetlands;
- 12 • Stream corridors and floodplains;
- 13 • Aquifer recharge areas, and

14
15 WHEREAS, the objectives of the Natural Infrastructure Capital Project is to:

- 16 • Protect and enhance those natural systems that can help to mitigate the impacts of intensive rainfall events
17 that are expected to continue to increase as a result of climate change;
- 18 • Help decrease sediment loads in streams and Cayuga Lake;
- 19 • Protect overall water quality in streams, surficial aquifers and Cayuga Lake, and

20
21 WHEREAS, the Natural Infrastructure Capital project goal is to reduce risks of flooding and protect public
22 and private water supplies; and

23
24 WHEREAS, the Project Selection Criteria and Process was accepted by the Planning, Development, and
25 Environmental Quality Committee in February 2017 which outlined the following evaluation criteria:

- 26 • The cost effectiveness of project in achieving the Natural Infrastructure Capital Project objectives;
- 27 • The ability for the project to leverage additional funding;
- 28 • The project is of sufficient size to make a major contribution to protection of natural infrastructure, and

29
30 WHEREAS, the project is to provide funding from the Natural Infrastructure Capital Project fund to support
31 the Etna Swamp - Brotherton Farm Protection Project, and

32
33 WHEREAS, the Etna Swamp - Brotherton Farm Protection Project,

- 34 • Enhances the Unique Natural Area Etna Swamp (UNA-82) wetland area which feeds Fall Creek;
- 35 • Helps to decrease the sediment loads to Fall Creek;
- 36 • Leverages funding from the Finger Lakes Land Trust to develop and implement the permanent
37 conservation easement;
- 38 • Is of sufficient size to make a major contribution of natural infrastructure by formally protect
39 hydrologically sensitive areas in the Fall Creek corridor; and

40
41 WHEREAS, support from the Natural Infrastructure Project fund is an important but not sole component of
42 the total funding needed to implement the Etna Swamp - Brotherton Farm Protection Project, and
